GENDER DIVIDE IN HEALTHCARE PROFESSIONS

2nd ANNUAL WOMEN IN SCIENCE AND HEALTHCARE SYMPOSIUM

WE INVITE YOU TO OUR FREE SYMPOSIUM

GENDER DIVIDE IN HEALTHCARE PROFESSIONS

WEDNESDAY, SEPTEMBER 27, 2017

1-5:30 p.m.

REGISTRATION REQUIRED

Rosalind Franklin University of Medicine and Science designates this live activity for a maximum of 3.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

SPEAKERS

*Gender and its Impact on
Interprofessional Collaboration*

Ann Bell, PhD
Assistant Professor of Sociology
University of Delaware

*Gender Segregation in Health Professions:
Culture, Privilege and Progress*

William Cody, RN, PhD
Independent Consultant in
Nursing, Healthcare and Leadership

Healthcare is one of the fastest growing segments of U.S. employment and also one of the most gender-segregated. Women comprise more than 75 percent of healthcare workers but are under-represented in many specialties and most leadership roles. This hierarchy was founded largely upon gender separation and traditional roles — a legacy that deeply challenges the goals of interprofessional collaboration. This symposium will illuminate the cost of gender segregation to healthcare quality and then turn to positive strategies for strengthening mixed-gender teams and the care they provide.

ROSALIND FRANKLIN UNIVERSITY OF MEDICINE AND SCIENCE
3333 GREEN BAY ROAD, NORTH CHICAGO, IL 60064

Professional Practice Gap

Healthcare is one of the fastest growing segments of U.S. employment, and also one of the most gender-segregated. Women comprise over 75% of healthcare workers but only 34% of practicing physicians. Females are under-represented within the higher-status physician specialties and in leadership roles throughout the healthcare sector.

Program Learning Objectives

Upon completion of this symposium participants will be able to:

1. Analyze the implications for interprofessional collaboration of gender segregation in healthcare
2. Link gender and power disparities in healthcare teams to their cultural origins
3. Innovate ways of improving communication and patient outcomes through diversity on healthcare teams.

Accreditation & Designation Statements

Rosalind Franklin University of Medicine & Science is accredited by the ACCME to provide continuing medical education for physicians. Rosalind Franklin University of Medicine & Science designates this live activity for a maximum of 3 AMA PRA Category 3 Credits™. Physicians should claim only the credits commensurate with the extent of their participation in the activity.
• CME credit may be appropriate for other healthcare professionals including Registered Nurses, Physician Assistants, and Nurse Practitioners.

Target Audience

The Gender Divide in Healthcare Professions symposium, as a CME-accredited activity, addresses the needs of physicians and others in meeting their patient care, professional and educational roles. This program will also be useful to other types of healthcare professionals, e.g. Podiatrists, Clinical Psychologists, Physician Assistants, Registered Nurses, Physical Therapists, and others, as well as to residents and students in the healthcare professions.

Announcement of Disclosure

The planner(s) and speaker(s) of this activity have no relationship with any commercial organizations providing direct or indirect financial support including but not limited to gifts, special incentives, medications, devices or other products. A full disclosure will be announced to the audience verbally and in written format before the activity.
