Module 3:
**SPECIALIZED
TREATMENT**
CME | CNE | CE | CDE 1.00 CREDIT
COMING SOON

The Migraine Toolbox is a free, comprehensive "how to" course in managing migraine. It covers the diagnosis and treatment of this disease.

It includes downloadable practical tools:

- questionnaires
- medication guidelines for clinicians
- patient brochure
- other resources

Those with migraine have many symptoms and therefore are seen by a wide range of medical professionals. This educational program will enable family practitioners, internists, pediatricians, ob/gyn physicians, otolaryngologists, mid-level nurses, pharmacists, dentists and other non-headache specialists to care for these patients.
