

About Doctors for America:

Doctors for America mobilizes doctors and medical students to be leaders in putting patients over politics to improve the health of our patients, communities, and nation. We are 27,000 physicians and medical students in all 50 states, representing all areas of specialization. Our impact areas focus on access to affordable care, community health and prevention, and health justice and equity. DFA focuses solely on what is best for our patients, not on the business side of medicine, and does not accept any funding from pharmaceutical or medical device companies. This uniquely positions DFA as the organization that puts *patients over politics* and *patients over profits*. About the American Medical Women's Association

The American Medical Women's Association is an organization that works to advance women in medicine, advocate for equity, and ensure excellence in healthcare. AMWA has been a long-time champion of reproductive health and access as well as women's health and sex and gender specific healthcare. Our members represent physicians, trainees, healthcare professionals, and supporters across all sectors of healthcare.

About the Reproductive Health Coalition

The Reproductive Health Coalition (RHC) is a wide-range of health professional associations and allied organizations that advocate with a unified voice to protect access to essential reproductive care. The tenets of this work include a patient's right to dignity, autonomy, privacy, and the expectation of a trusted relationship with their clinician; protection of the clinician's ethical obligation to provide care, including their access to comprehensive training; and a commitment to an evidence-based approach to policy and practice. Over 40 organizations participate in the RHC, collectively representing more than 150 million members. The RHC was founded by the executive directors of Doctors for America and the American Medical Women's Association. Click [here](#) for more information.
