Advocacy

AMWA opposes Judicial interference in FDA approval of mifepristone and joins amicus briefs to the 5th Circuit Court and the Supreme Court.

"We support the authority and expertise of the FDA to make determinations about the safety and use of mifepristone as they do for all prescribed medical therapeutics. Abortion care should not be treated any differently. Allowing judicial opinion to override FDA expertise in reviewing scientific data and setting policy guidelines is an alarming precedent for all approved and new drugs."

-- Dr. E. Garner, MD, MPH, AMWA President
